MEMORANDUM FOR: THE DIRECTOR OF CENTRAL INTELLIGENCE

25X1

SUBJECT : Recommended Position on State Proposal to Revise PSB D-23

1. It is recommended that CIA support PSB D-23 as drafted, and oppose the State recommendation to excise Phase II of the Plan and certain phrases in the body of the Plan which led up to Phase II.

It is essential to our entire program to have NSC approval of the principle that this Agency is authorized to plan and develop guerrilla and para-military forces for activation when conditions permit. If State remains firm in its objection to Phase II, it is recommended that the following sentence be added:

"Concurrently with the implementation of this strategy, plans will be developed for its expansion if and when conditions warrant this expansion."

2. The following comments on State's arguments are advanced:

c. It is our belief that the Ambassador's statements in paragraph 4 reflect a misinterpretation of past developments, misinformation about current programs, and a lack of understanding of covert techniques. The following points are pertinent:
